WHEN YOUR HANDS DEMAND THE BEST!

# GRANT HISTORY

Grant Products has an automotive heritage that began in 1922 with the founding of the Grant Company by Gerry Grant. Over the years Grant's product offering consisted of engine overhaul kits, piston rings, valve spring inserts, ignition systems and safety helmets. In 1962 we introduced the first Grant Steering Wheel for dune buggies and quickly added steering wheels for the automotive aftermarket.

Today Grant manufactures a complete line of custom steering wheels and accessories. Grant produces wheels that are designed for the automotive aftermarket, racing, golf cars and utility vehicles, the marine industry, heavy-duty trucks, and the RV/Motorhome industry. Our newest products include an expanded offering of steering wheels and styling rings for air bagged equipped vehicles.

Grant operates two modern factories in Glendale, California and in Matamoros, Mexico. The Matamoros factory is an ISO/ TS certified facility. Grant also has affiliated manufacturing facilities in Italy and Asia.

Grant manufactures steering wheels that add personal style to a wide range of vehicles. Grant has always offered innovative, fine quality products, with distinctive style, solid value and a wide selection of designs to express your individual personality.

## Revolution Style O.E.M. Airbag Replacement Steering Wheels

Revolution Style Airbag Replacement Steering wheels feature modern, stylish, designs that will revolutionize the appearance of an airbag equipped truck or sport utility vehicle. These wheels are constructed using the original factory wheel frame. The wheels allow the vehicle to be customized while retaining the safety features of the airbag.

GMT 900 Series Wheels will work with original equipment wheels with or without factory switches. These wheels do not include an air bag. They are installed by removing the original steering wheel and installing the OEM Replacement Steering Wheel using the original factory air bag. The wheels are easy to install and can be done by any authorized GM dealer.

## Classic OEM Airbag Replacement Steering Wheel Series

Classic OEM Airbag Replacement Steering Wheels add style and elegance to ordinary airbag equipped vehicles.

### Classic OEM Airbag Replacement Steering Wheels

Grant OEM Replacement Steering Wheels add style and elegance to ordinary air bag equipped vehicles. Grant offers steering wheels to fit older airbag equipped General Motors and Ford trucks and SUV's (see application charts below). The OEM wheels are available with beautiful hand crafted mahogany wood rims, and hand-stitched leather grips.

### GM Classic Airbag Steering Wheels

General Motors wheel replacement parts with Grant's customized rim designs. The Grant OEM Replacement Steering Wheels do not include an air bag. The steering wheels are installed by removing the original steering wheel and installing the new Grant Steering Wheel using the original factory air bag. The Grant Steering Wheels are easy to install and can be done by any authorized GM dealer.

### Ford SVO Restyling Classic Airbag Steering Wheels

The Ford SVO Restyling Classic Steering Wheels are designed to fit Ford trucks and SUV's. The wheels feature beautiful wood combined with three beautiful leather handgrips. These wheels meet all of the Ford Motor Company and FMVSS standards. The steering wheels are installed by removing the original steering wheel and installing the new Ford SVO Restyling Steering Wheel using the original factory air bag. The wheels are easy to install and can be done by any authorized Ford dealer.

	1997-02	Expedition (w/Cruise Control Only)

Fords listed above will not fit wheels with radio controls on wheel.

These unique steering wheel designs are inspired by classic wheel styles of the past to create a modern interpretation of a proud automotive heritage. The Heritage Series elevates the billet concept to the next level by providing a fully leather wrapped or mahogany wood rim for ultimate grip comfort.

## The Heritage Collection

The Heritage Collection features larger diameter machined aluminum steering wheels. The spokes are machined 6061T6 Alcoa aluminum in a range of designs, polished to a mirror finish. The rims are genuine leather or hand rubbed mahogany wood. The wheels have finger grips on the back of the rim for additional comfort and style. The modular construction creates a wheel rim that is covered completely with leather or mahogany, not with a partial aluminum rim as used in many billet wheels. The modular grip also allows the ultimate in customization! Enthusiasts now have the ability to remove the ring and recover the leather to match any interior. The mahogany wood versions can be removed and painted to match any custom paint scheme.

The center of each wheel has a polished aluminum center cap, which compliments the wheel design.

### Banjo Style Wheels

Banjo Style is an updated version of the classic "Banjo" steering wheel. Banjo Style features stainless steel construction with a highly polished center hub. The spokes are five polished stainless wires anchored to the wheel rim with a sculptured stainless steel spoke retainer.

The rims are available in rich, soft, hand-stitched leather or hand-rubbed mahogany wood with a deep, rich luster.

Banjo Style wheels are designed to be the finishing touch for any street rod vintage car or truck. Banjo Style wheels can also add a touch of timeless classic elegance to any model car or sport truck.

### F/X 3 Wheels

These F/X 3 Wheels feature materials and colors that provide an exciting combination of high style and maximum comfort. The top and bottom portions of the grip are high density polyurethane with a high gloss finish in a selection of vibrant candy colors found in today's hottest applications. The wheel provides an ergonomic hand grip area that is a molded black cushion grip with a leather grained and perforated design. The stylish grip also provides a thumb rest feature on the front of the grip and a finger recess area on the back of the grip for exceptional driving comfort. The spokes are highly polished aluminum. 13" diameter, 3½" dish with styling sleeve.

## Classic GM Wheels

These wheels feature the classic design that was a popular option wheel of the GM muscle cars of the '60's. The original wheels were plastic with a faux wood pattern in two finishes. The Grant wheels are genuine wood and replicate the original finishes (dark mahogany and light walnut) as well as an added glossy black model and all feature brushed stainless steel spokes. The 6-bolt pattern wheels are a direct bolt-on replacement for the original wheel and utilize the original horn button components. They are available in the original 16" diameter with 4" dish (in dark mahogany only) and 14½" diameter with a 3" dish (in all three finishes) for additional driving comfort and space. The 3-bolt pattern wheels can be used on any vehicle with our standard (3000/4000) series installation kits. They feature the same wood finishes with brushed stainless steel spokes and have a brushed stainless steel horn button as well.

These new wheels feature spokes that are patterned after the classic Mopar Tuff Wheel design from the 60's muscle car era.

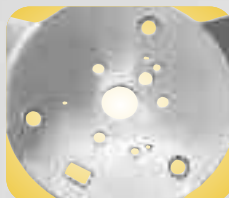

### Classic Nostalgia Wheels

These new wheels feature spokes that are patterned after the classic Mopar Tuff Wheel design from the 60's muscle car era. The steering wheels are available with hardwood walnut finish grips or thick cushion foam grips. The spokes are CRS steel with a matte nickel plate finish. The retro style horn button completes the look of this muscle car classic.

### Dual Bolt Pattern

The wheels have the Grant standard three-hole bolt pattern so they can be installed on a wide variety of vehicles using a Grant Installation Kit.

The wheels also have the original Mopar Tuff Wheel bolt pattern and can be installed as a replacement wheel using the original hardware on the original column.

FOUNDATION  
INC.

## SFI

All "Pinless" Quick Release Models meet the S.F.I. 42.1 Specification. This is a NHRA Mandatory Specification. The 3001 and 3011 Series fit Grant 3-Bolt Pattern Wheels. The 3021 Series fit Grant 5-Bolt Pattern Wheels.

- 3011 "Pinless"** For GM Splined Shaft
- 3012** For Ford Splined Shaft
- 3013** To Weld on 5/8" Shaft

**NEW**

**3073**  
To adapt Grant 5-Bolt wheels to Grant 3-bolt Racing Quick Release (adapter included on 5-bolt releases)

**NEW**

**3075**  
To adapt 6-bolt Momo/Sparco and Nardi bolt pattern wheels to Grant Racing Quick Release

### Horn Buttons

Grant has a wide range of horn buttons that will personalize and add style to our custom Steering Wheels. Our selection includes Official Licensed Product from Ford Motor Company, General Motors and Chrysler.

### Signature Horn Buttons

These buttons can be used on Signature Series and Classic 5 wheels with a 5-bolt mounting pattern.

### Classic & Challenger Horn Buttons

These buttons will replace all metal buttons on Classic (except Classic 5) and Challenger series wheels. The 5646 is the billet housing only, you can add any of the Signature Series buttons to the housing to create a custom look for any Classic/Challenger Wheels.

### Chrysler Licensed Products

The 860 Wheel is shown with our New Black Mopar and Chrysler Pentastar Horn Buttons.

**2001 Vehicle Security System**

After years of research and development, this fully patented system has proven to be virtually foolproof and safe.

## No Wheel, No Steal

Grant introduces the world's first security system based on removing a car's steering wheel. That's right...removing a car's steering wheel.

After years of research and development, this fully patented system has proven to be virtually foolproof and safe. It's easy to install. It's easy to use. **As easy as 1-2-3.** And the wheel goes on the same way it comes off.

**Note:** 2001 Vehicle Security System can only be installed on 3000 or 4000 series kits. **Euro, Telescopic, Billet, and Banjo Kits cannot be used.** Does not work with original factory steering wheels or airbag equipped vehicles. Requires a Grant Steering Wheel that has our 3 bolt or 5 bolt mounting pattern.

### 1966 Chevelle El Camino

Tony Stark is constantly winning show awards and appearing in magazines and videos with his distinctive El Camino. He keeps it safe by using a Grant 2001 Vehicle Security System.

### 2010

Nylon Carry-Along Storage Bag. A convenient way to Carry and Protect your Wheel when removed from the vehicle. (Optional Extra).

### 2001

Vehicle Security System

## 3 Easy Steps to Your Vehicles Security

**1**

Use the Flagged Security Key to Unlock the Steering Wheel

**2**

Trigger Release Knob, Turn Wheel to Left, and Remove

**3**

Snap on the Security Lock-Out Cap and Remove Key

The Grant Gear Shift Knobs combine great design and accent colors that look great with a Grant Steering Wheel or Airbag Styling Ring.

### Gear Shift Knobs

The Grant Gear Shift Knobs combine great design and accent colors that look great with a Grant Steering Wheel or Airbag Styling Ring.

### Evolution Gear Shift Knobs

The Evolution Gear Shift Knobs feature leading edge Italian design to make any vehicle look like a high tech race car. The Evolution Gear Shift Knobs combine great design and accent colors that look great with a Grant Steering Wheel or Airbag Styling Ring.

Medium Bench Seat (Up to 52")	—	1212	—	—
Large Bench Seat (Up to 61")	—	1222	—	1226

*Not suitable for use with side impact air bags in seats.*

## Installation Kits

**Models 3000 thru 4000 Series'**  
Basic installation kit components shown.  
(Components vary by application).

Grant manufactures Installation Kits to install Grant Custom Steering Wheels on a wide variety of vehicles.

### Installation Kits

Grant manufactures Installation Kits to install Grant Custom Steering Wheels on a wide variety of vehicles. An Installation Kit is necessary to install a Grant Steering Wheel. Kits are not designed to be used with airbag-equipped vehicles. If your vehicle has an airbag, refer to our airbag solutions section of this catalog.

### 3000 - 4000 Series' Installation Kits

This is the standard Grant Steering Wheel Installation Kit. These kits may be used to install all Classic Series, Challenger Series or Signature Series Steering Wheels. Each kit contains complete step-by-step instructions, a die cast hub, grade 5 hardware and matte black trim pieces.

Use Installation Kits  
3000 - 4000 Series' only.

### 2001 Vehicle Security System Installation Guideline

2001 Vehicle Security System can only be installed using one of the above kits. *Euro, Telescopic, Billet, and Banjo Kits cannot be used.*

5196 Black Luster

5196-1 Polished Aluminum

### Optional Billet Style Installation Kits

Grant Billet Style Installation Kits are an optional styling upgrade. The Billet Style Kits have Grant's five-hole mounting pattern and can only be used to install Grant Signature Series Steering Wheels.

### 6500-6599 Euro Steering Wheel Installation Kits

The Grant Euro Kits are designed to fit some of the most popular European cars. The kits have Grant's five-hole mounting pattern and can **only** be used to install Grant Signature Series Steering Wheels.

Styles vary by application

### 6400-6401 General Motors Telescopic Installation Kits

These kits are designed for General Motors cars with telescopic steering columns only. They have Grant's five-hole mounting pattern and can only be used to install Grant Signature Series Steering Wheels.

**6400** 1984-89 Models 2" travel (Can be used on older models but will limit travel to 2").

**6401** 1969-83 Models 3" travel. Matte Black Finish.

GM Telescopic

## Steering Wheel Installation Kit Application Chart

### IMPORTANT INFORMATION PLEASE READ

- Grant installation kits are necessary to install Grant Custom Steering Wheels. Genuine Grant Installation Kits should be used **ONLY** on vehicles specified in this application chart.
  - Installation Kits are not designed to be used on any airbag equipped vehicle.
  - These Kits are not designed for use on vehicles with radio controls or cruise controls mounted on the steering wheel except for certain Ford vehicles with factory cruise control switches in the steering wheel. See page 45.
  - Installation Kits will not fit vehicles with telescope column. (**Except Kit No. 6400 & 6401** – see application guide).
  - To ensure adequate finger clearance between the steering wheel rim and turn signal or other column levers, select a Grant Custom Steering Wheel that will approximate the “dish” of the original wheel. Be sure to add 1" adapter height to the printed Grant Wheel “dish” when comparing to the original wheel. See diagram.
- Listed by car brand
  - Boats and golf carts on page 46
  - Custom steering columns on page 46

## Ford Cruise Control Kits

These kits are designed to fit Ford cars and trucks with the factory cruise control switches located in the steering wheel. These kits are engineered to fit specific Ford vehicles as shown below.

The kits allow you to install Grant Signature Series Wheels and retain the cruise control feature. Kits are available for both 3 and 4 spoke wheels. The kits are shipped fully assembled for easy installation. The kits feature a high gloss black finish. Each kit is 100% functionally tested by Grant prior to shipment.

3-Spoke & 4-Spoke Kit Pictured  
See Application Guide

## PLEASE READ IMPORTANT INFORMATION REGARDING ALL APPLICATIONS

• Indicates Billet Style Kit Available. See page 42

GREY Indicates EURO Style Kit will fit Signature Series Steering Wheels only.

## Heavy Duty Truck Wheels

The new Heavy Duty Truck Steering Wheels are designed for the heavy duty truck driver. These larger diameter steering wheels are designed to customize the truck appearance and bring added driving comfort.

### Driver 3 Model

The Driver 3 wheels feature bright chrome finish steel spokes, a matching chrome trim ring and a thick cushion foam grip.

**12000 Driver 3 Model**  
18" Diameter

**13000 Driver 3 Model**  
18" Diameter

### Trucker Model

The Trucker Wheels have bright chrome finish steel spokes, a molded black urethane rim and black urethane horn pad.

**10001 Trucker 3 Model**  
17 1/2" Diameter

**10504 Trucker 4 Model**  
18" Diameter

### Mirage 4 Model

Molded polyurethane with both simulated leather grain and perforated leather grain. Ergonomically shaped grip with "Comfort Grip" molded upper spoke for increased driving pleasure and less fatigue. Features brilliant chrome center trim and spokes.

**55000 Mirage 4 Model**  
18" Diameter

### Tour 4 Model

This wheel features bright finish chrome steel spokes, a genuine mahogany wood rim with real leather accents and a mahogany horn pad.

**62020 Tour 4 Model**  
18" Diameter

## Heavy Duty Truck Installation Kits

An Installation Kit is necessary to install a Heavy Duty Truck Wheel. These wheels can not be installed on cars or light duty trucks. Grant Automotive Kits and Steering Wheels are not interchangeable with Heavy Duty Steering Wheels and Kits.

## Grant Custom Styling Ring

The Grant Custom Styling Ring makes it easy to add style and elegance to airbag steering wheels. The Styling Rings are beautifully crafted and formed to exactly match the contours of the factory airbag steering wheel rim and spokes.

The Styling Ring installs over the factory airbag steering wheel and instantly transforms the ordinary appearance of the wheel into an elegant, high style customized steering wheel. The Styling Rings are designed to accent the airbag steering wheel, while retaining all of the airbag features.

The Custom Styling Rings are available in two style finishes. The first is a Burlwood Style, and it offers the traditional beauty of rich full-grained wood with a high gloss finish. The second is a Carbon Fiber Style that features the high tech look of woven carbon fiber, the space age material used in aerospace and Formula 1 Racing.

The Styling Rings are molded from high strength composite material featuring Grant's photolithographic process, a photo printing process that offers an extremely realistic detailed appearance.

To find the Grant Styling Ring designed to fit your vehicle, see application guide below.

The Grant Custom Styling Ring makes it easy to add style and elegance to airbag steering wheels.

Carbon Fiber installed in Chevy Truck

Burlwood installed in Toyota Truck

## Grant Time

What better way to keep track of time than with a new Grant Steering Wheel Clock! This unique clock is made of the same material we use to manufacture our Styling Rings. Available in Brushed Silver.

5050

## Grant Store

Grant offers a line of high quality tee shirts imprinted with the Grant logo and the Grant Racing Logo.

Our Heritage Series features imprints of historical cars and ads that were associated with Grant during the 1940's, 1950's and 1960's. Grant was an early sponsor of the 200 Miles Per Hour Club and a sponsor of race cars at the Indianapolis 500 including the first Ferrari to race at Indy. An early dry lakes race car and a twin engine Tornado drag car complete the Heritage Series.

The shirts are 100% pre-shrunk cotton and available in adult sizes M, L, XL and XXL.

## Grant Caps

The Grant Caps feature embroidered logos.

071 Black Splash! Logo Cap

063 Black Logo Cap

021 Four Wheel Rack on shelf with product.

## 093 Single Steering Wheel Display

Can be used with Classic, Challenger, Signature and Revolution Airbag Series Wheels. Great for smaller shops that want to get a wheel on display.

020 Gear Shift Knob Display

021 Four Wheel Rack

Keeps four wheel boxes in place on lozier shelf

## Header Cards
